COVER LETTER

Dear Hiring Manager,

I am excited to apply for the Front-End Developer position. As a skilled Front-End Developer with experience in UX tools like Figma, Canva, Adobe Express, and Git, I am confident that I can make a significant contribution to your team.

I am proficient in Agile Scrum methodology, which enables me to develop high-quality applications while ensuring that they meet project timelines and requirements. Additionally, my excellent networking and team-working skills enable me to collaborate effectively with other developers, designers, and stakeholders to achieve project goals.

Furthermore, I am good at English and Swedish, which I believe will be an asset in communicating with your Swedish-speaking clients and colleagues.

In my previous role in the Banks I had tested many applications, so It's possible for me to fit into a QA role as well. I am confident that my technical skills, expertise in UX tools, and knowledge of Agile Scrum methodology make me a perfect fit for this position. Thank you for considering my application. I look forward to discussing my qualifications with you further.

Thank you for your consideration.

Sincerely,

Sankeertana Angara
